### PROFILE

I am a full-stack web developer with a strong understanding of front-end and back-end technologies. I am looking for a career transition opportunity where I can grow and utilize my development skills, along with the leadership and problem-solving skills that I acquired during my previous roles in customer success and leading a team during BAAZ.

### SKILLS

#### Front-End

HTML5, CSS, SASS, Javascript, ES6, Document Object Model (DOM) Web APIs, React, BEM, Babel.

#### Back-End

Node.js, Express.js, RESTful API, User Authentication, OAuth, Passport.js.

#### Databases

MongoDB, MySQL, Mongoose, Bookshelf

#### Deployment & Development

GitHub, Heroku, Netlify, Webpack, Jira.

#### Testing

Jest, Enzyme.

#### Other

Figma..
